

REMARKS

The undersigned conferred with the Examiner today about the fact that the specification of the application as filed lacked a brief description of Fig. 5. Nobody else participated and no art was discussed. The above amendment is intended to remedy this issue and Applicant requests that the amendment be entered. The amendment adds no new matter as the specification already contains a quite detailed discussion of Fig. 5 on p. 22, line 7 to p. 23, line 2, among other places.

The Examiner is invited to contact the undersigned at (713) 934-4053 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,
